

Hi! We have two cars...

We've had our 67 Camaro SS since 1994. This car has a modified small block 350 with 5:13 gears and was built to drag race. With a few minor modifications and replacing the power glide with with R4 700 transmission we have made this car road ready. It's a fun little car with plenty of power!

When we were first married we had a 86' Monte Carlo LS. We traded this car and some cash for our Camaro shown above. We missed that car and thought one day we would buy another one just like it. After years passed we realized it wouldn't be the same. One year while parking cars at our Pair-A-Cruisers Car Show, a Monte Carlo SS pulled in and we both looked at each other and said "that is hot", we realized we both liked the Monte SS. A year and a half later we bought this 87 Monte Carlo SS.

We are Larry and Marcy Dalchow, we live in Buffalo, MN. We enjoy our cars and we are proud to be members of the Pair-A-Dice Cruisers!
