

We are Lyle and Darlean Goskey of Burschville, Minnesota. My first car was a 1956 Chevy and I wanted another one. In 1988 my brother-in-law in California found us one and sent us some pictures of it. We flew out there and drove it back to Minnesota. This car was made in Oakland California and is original. When we got it, it had a 6 cylinder engine. In 2004 we put in a 350. We enjoy cruising around with it and taking the grandchildren for rides.
